UPT150

Transport | Uplifter

Load capacity	150 kg
Working height max.	ca. 1,7 m Center vacuum cross
Indoor	✓
Outdoor suitable	✗
Dead weight*	69 kg
Length	1,75 m
Wide	0,71 m
Height	1,98 m
Accessories	side shift, downward extension, downward inclined extension, forward extension, holder incl. electric suction cups

*depending on equipment

TIP
Optionally, the UPT 150 is also available with electric hand vacuums. This enables the suction of glass, metal, plastic, wood, tiles, concrete, sheetrock and other rough surfaces.

Variable suction pad positioning for different formats or to be able to compensate for openings such as windows.

Removable weights for easier transport.

See the detailed application on our YouTube channel.

A **tipping unit** is available as an accessory and allows **doors, tiles and panels** to be transported as well as assembled in one step.

Quickly dismantled into individual parts, the UPT250 even fits into a car and can be transported to hard-to-reach areas.

UPT 250

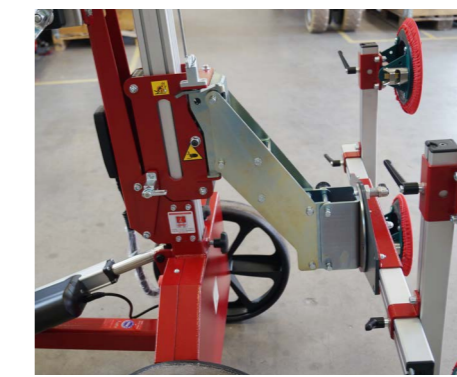

See the detailed application on our YouTube channel.

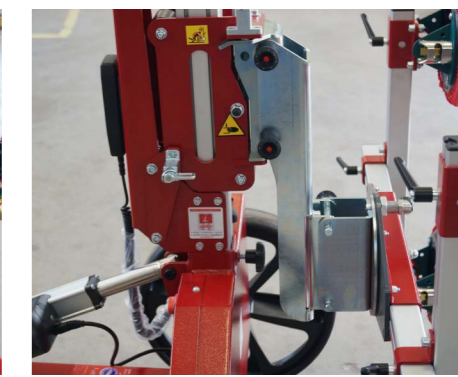

A **tilting unit** is available as an accessory and enables the transport of **doors, tiles and sheet goods** as well as assembly in one step.

TIP
Optionally, the UPT250 is also with electric hand vacuums available. This enables the suction of glass, metal, plastic, wood, tile, concrete, sheetrock, and other rough surfaces.

The extension diagonally downwards enables narrow discs to be accommodated

Extensions and side shift are available as accessories
