

LEADCNC

Serial No: 1

Name: Automatic Remote Controlled Glazing Bead Cutting

Machine

Model: Turquoise 350R

Product Information

Turquoise 350R – Specialized for Cutting Glazing Beads in Aluminum Alloy Windows and Doors

Model 1: 90° cut

Model 2: Arbitrary cut: +22.5°-157.5°

User-Friendly Operation:

Features wireless measurement and automatic data transmission for precise CNC-based sizing. Cuts glazing beads to the required dimensions in one step, eliminating the need for additional trimming.

High Precision:

Equipped with a handheld wireless measuring device for real-time bead size measurement and a high-precision spindle saw blade motor, achieving a processing accuracy of 0.1mm.

High Efficiency:

Saves the need for an experienced craftsman, doubling the efficiency compared to traditional cutting methods.

Unique Chip Removal Design:

Includes a waste collection box, ensuring a cleaner workspace.

Tool Management and Maintenance:

Comes standard with a tool life management system and automatic maintenance reminder function.

Product Specification

Serial No: 1

Name: Automatic Remote Controlled Glazing Bead Cutting Machine

Model: Turquoise 350R

Machining Specifications	Parameter Value
Saw Blade Size	ø350×ø25×3.2 Z=100
Profile size	Square tube: 70 × 70mm Rectangular tube: 80 × 70mm
Saw blade speed	2,800 r/min
Motor Power	1.3kW
Bluetooth Measuring Tape Parameters	Parameter Value
Fixed-Length Range	0-3,000mm
Measuring Range	125-2,500mm
Positioning Speed	Positioning Speed: 1 m/s
Measurement Accuracy	0.1 mm
General Parameters	Parameter Value
Power supply	400V/50Hz
Power	3.0kW
Pressure	0.5-0.8MPa
Gas consumption	8L/min
Weight	710KG
Overall dimensions(L*W*H)	8,200×950×1,700mm (include track)
