

LEADCNC

Name: T-cleats Installation Machine

Model: Lazulite 150

Product Information

Features

- Designed for automated installation of T-cleats in mullions
- After reading aluminum profile specifications with CCD cameras, the machine automatically complete the insertion and screwing of T-cleats.
- 4 storages for 2 different T-cleats stocking come as a standard.
- It achieves accurate positioning and intelligent insertion for T-cleats, thanks to our own software and algorithms
- Can be used for T-cleats insertion for profiles up to 6 meters.

Storage for 2 types of
T-cleats

Mechanical clamp in
X/Y/Z axis

Autp screwing

LEADCNC

Name: T-cleats Installation Machine

Model: Lazulite 150

Product Specification

Technical Specifications

Profile height	50-150mm
Profile width	50-120mm
Profile length	1,000-6,000mm
Gas pressure	0.5~0.8Mpa
Gas consumption	150L/min
Rated power	12 kw
Power supply	380V/50Hz
Net weight	approx 5,700 Kg
Dimension (LxWxH)	10270mm×5500mm×1600mm
